Last 4: 0191

First name: Carlos U

Skills: Java, Python, C, Html, R, SQL

Roles: Scrum Master (First week), Team Leader (Second Week), HTML developer

Experience:

"Team Leader from Corp 0"

- Collect and organize the files from my team into the Corporation 0 website.

"Celtic Knot Team 3"

- Create part 4 (one of the corners of the picture) and help my group merge our corresponding parts to recreate a similar version of the picture presented by the professor.

"Help Button"

- In charge of the design of the admin client interface
- Create the website's base for the admin interface for the project: the "Help Button", which will be merged with the JavaScript section once it's completed.
- Fulfill customer requests to follow the UMass Boston style guide, such as specific colors and fonts, and include the university's mascot, Bobby the Beacon, in the admin client interface.
